

The Utica Community Schools Virtual Academy is now accepting applications for families seeking a virtual learning option featuring the district’s nationally recognized academic programs. “Our Virtual Academy offers the choice to combine the district’s educational excellence with a virtual environment,” Interim Superintendent Robert Monroe said. “We are proud to now offer the academy as part of the Utica Community Schools portfolio of options that meet our students’ unique needs and interests.”

The virtual academy gives families virtual access to K-12 programs offered through the Utica Community Schools, including core elementary and specials and secondary elective and required courses. Students can participate in extra-curricular activities, including marching band and athletics, through their home schools.

Applications and more information (including an updated question and answer sheet) are available at: [https://uticak12.org/UCS\\_Virtual\\_Academy](https://uticak12.org/UCS_Virtual_Academy). The application period ends May 2.
